

# GWAL-7

## 7th German Workshop on Artificial Life Friedrich-Schiller-University Jena

26. - 28. July 2006

The 7th German Workshop on Artificial Life in Jena will continue the successful series of GWAL-gatherings, which are attended particularly by young European researchers in the field of Artificial Life (AL).

Since its inception in the 1980s, AL is an interdisciplinary field of science focused on abstracting the essential features and dynamics of living systems in order to create artificial, life-like systems. GWAL-7 is intended to provide the opportunity for biologists, physicists, information and computer scientists, chemists, mathematicians, and philosophers interested in this field to present and discuss their new results.

The workshop is open to an international audience and will be held in English.  
Accepted papers will be published by IOS Press (Submission Deadline: 15. February 2006)

### Program Committee:

A. Adamatzky (Bristol), W. Banzhaf (Newfoundland), C. Beckstein (Jena), M. Bedau (Portland), S. Bornholdt (Bremen), W. Brauer (Munich), T. Christaller (Sankt Augustin), C. Emmeche (Copenhagen), H.-M. Groß (Ilmenau), M. Hauhs (Bayreuth), M.C. Hirsch (Marburg), J.T. Kim (Norwich), B.-O. Küppers (Jena), H.A. Mallot (Tübingen), T. Martinetz (Lübeck), B. Mayoh (Aarhus), J. McCaskill (Bochum), M. Middendorf (Leipzig), C. Müller-Schloer (Hannover), C. Nehaniv (Hatfield), D. Polani (Hatfield), R. Rojas (Berlin), K. Schill (Bremen), J. Schmidhuber (Lugano), F. Schweitzer (Zürich), A. Skusa (Bielefeld), P.F. Stadler (Leipzig), J. Triesch (Frankfurt), C. Wilke (Austin), K.-P. Zauner (Southampton), U. Tangen (Bochum)
